PROFESSIONAL SUMMARY

Aspiring Backend Developer with experience in building web applications using Java, Spring Boot, and MySQL. Proficient in designing REST APIs, database management, and backend architecture. Skilled in applying OOP principles, and deployment tools to create efficient, secure, and scalable solutions. Completed projects including FitTrack (fitness tracker) and Chicken (e-commerce platform). Seeking an opportunity to contribute to impactful projects, collaborate with experienced professionals, and grow into a well-rounded backend developer.

TECHNICAL SKILLS

- Language : Java , Python , SQL , JavaScript
- Frameworks & Libraries : Spring Boot , React JS , Hibernate , JPA
- Database : MySQL , MongoDB
- Tools : Git , GitHub , Railway , Postman , AWS
- Concepts : OOP , DSA , Devops , System Design

PROJECTS

1 - FitTrack – Fitness Tracking Web App

- Built with Java, Spring Boot, Chart JS , Java Script
- Implemented features to record workout , meal , water , sleep tracking and weekly summaries with interactive dashboards.
- Live Link :- <https://fittrack-alpha-seven.vercel.app/>

2 - Chicken E-commerce Platform

- Build with Spring Boot , Java , JavaScript
- It support product , Cart system , Checkout , H2 Database
- Live Link :- <https://chicken-commerce.vercel.app/>

EDUCATION

- BSc, Snehlata Degree College, Kanpur
- Java Full Stack, Bytecode It Solutions, Kanpur

ADDITIONAL INFORMATION

- Solving Data Structures & Algorithms (DSA)
- Currently improving skills in Spring Security , JWT Authentication and Cloud Deployment
